A photograph of a community event, likely a fair or festival. In the foreground, a woman with dark hair and a black shirt is holding a yellow popsicle. She is surrounded by children; a girl to her left is wearing a blue backpack, and a boy in front of her is holding a white popsicle. To the right, another girl is holding a pink popsicle. In the background, other people, including a woman with a white bag, and parked cars are visible on a street.

CCD AUGUST NEWSLETTER

AUGUST 14, 2026

The ONE Community Resource Center is almost ready!

The transformation of ONE Community Resource Center is nearly complete!

Renovations have officially wrapped up, and the space is looking better than ever. Our final step is furnishing the center, which will take place over the next few weeks. Once completed, this shared community space will allow Clark Community Development and Renewed Horizons to expand services, host classes, connect residents with resources, and welcome the community through our doors.

Next step: Furniture, equipment, and the finishing touches!

OPENING MID-AUGUST

Partner Spotlight

Angel's Arms
Home Health Services, Inc.

Sherene Sterling

Founder of Angel's Arms Home Health Services, Inc.

Angel's Arms
Home Health Services, Inc.

Sherene brings more than **20 years of experience in the home health industry**, with a deep understanding of what it means to serve the geriatric community with compassion, dignity, and individualized care. Her career has been dedicated to helping older adults receive the healthcare, education, and support they need while remaining safely and comfortably in their own homes.

Seven years ago, Sherene founded **Angel's Arms Home Health Services, Inc.** with a simple but meaningful mission: **bring the care to the patient**. For many seniors, traveling to appointments can be physically demanding and stressful. Angel's Arms was created to help bridge that gap by bringing essential healthcare services directly into the home.

Through a multidisciplinary approach, patients have access to ***skilled nursing, physical therapy, occupational therapy, speech therapy, and medical social services***, all coordinated around each patient's individual needs. The organization's focus goes beyond providing a service—it is about making healthcare more accessible, personal, and responsive to the needs of the aging population.

An important part of that commitment is helping seniors and their families ***navigate the healthcare system and understand the resources available to them***. Angel's Arms assists patients in understanding and accessing their ***Medicare benefits*** while connecting them with appropriate resources to review available coverage options based on their individual healthcare needs and circumstances. The goal is to help seniors become better informed so they can make healthcare decisions that support both their current and future needs.

Sherene and her team also recognize that good health extends beyond what happens during a nursing or therapy visit. They help connect patients and families with valuable ***community-based resources***, including ***Meals on Wheels and other nutrition programs, medical and non-emergency transportation, senior support programs, social services, and additional resources*** that can help seniors remain safe, independent, and connected to their communities.

As Angel's Arms continues to grow, Sherene has partnered with ***Comforting Care Home Health*** to expand access to quality home health services throughout ***Greater Los Angeles, the Inland Empire, and Ventura County***.

Sherene's vision is to provide a more **concierge-style approach to home healthcare**, helping patients navigate their care from multiple angles. Whether that means receiving skilled healthcare at home, understanding available benefits, coordinating services, or connecting with essential community resources, her goal is to make the process easier for patients and their families.

Angel's Arms does more than bring healthcare into the home—it helps connect the pieces of care so seniors can live healthier, safer, and more independent lives.

Staff Spotlight

KD – More Than a Haircut

For KD, cutting hair has never been just about a fresh fade—it's about giving back, building confidence, and making someone feel seen.

KD first picked up the clippers in the **7th grade** and continued cutting hair throughout high school and college. Nearly **20 years later**, that passion is still going strong, but the purpose behind it has grown even deeper.

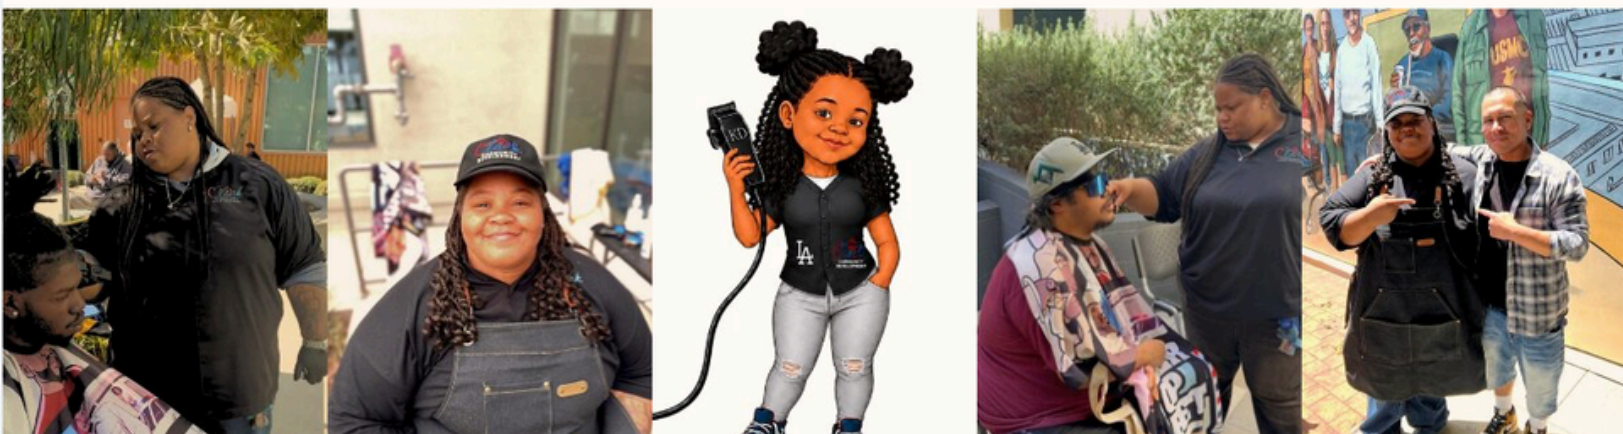

A big part of what motivates KD is supporting **single mothers and families who may not always have the extra financial resources to keep their young men groomed for school and other important moments**. She understands that something as simple as a haircut can make a real difference in how a young person feels when they walk into a classroom.

Her desire to serve extends beyond the barber chair. KD enjoys watching other barbers who use their skills to give back to their communities, particularly those helping children and people experiencing homelessness. She also enjoys teaching young people who are interested in learning the basics of cutting hair and showing them how their skills can one day be used to help someone else.

For KD, one of the most rewarding parts of barbering is seeing the transformation—not only in someone's appearance, but in their spirit. Giving a haircut to someone who may have gone months or even years without one and watching a smile appear afterward is what makes the work meaningful.

And when she does have time to kick back? Her favorite movie is fittingly ***Barbershop***. We can't say we're surprised.

At CCD, we're grateful to have KD bringing her talent, generosity, and community-minded spirit to our events. **Sometimes a haircut is more than a haircut—it's dignity, confidence, and a reminder that somebody cares.**

July & August Community Highlights

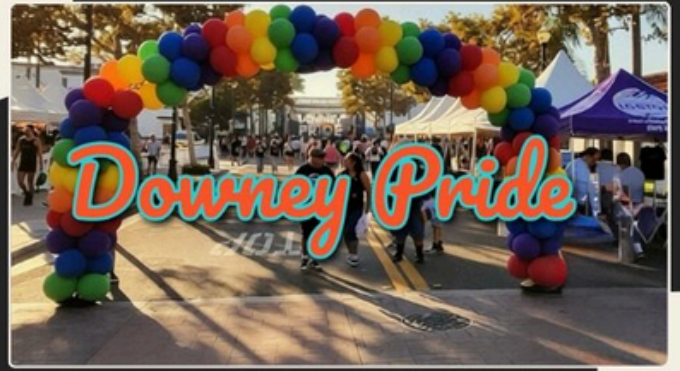

Over 100 Backpacks Given to Local Students

- More than 100 backpacks distributed.
- Each backpack included school supplies.
- Children and families from the surrounding neighborhood attended.
- Paleta cart was a success!
- Families played games and activities.
- Optional health screenings by Tri-State Community Healthcare.

Thank you to our volunteers, staff, and community partners!

CCD at Downey Pride!

- CCD presented an outreach table.
- L.A. CADA hosted the Pride festival.
- Staff met community members and shared information.
- Gift cards, prizes, and other giveaways!

Clark Community Development was proud to participate in Downey Pride, hosted by our friends at L.A. CADA. Our team connected with wonderful community members, shared information about CCD's programs and services, and gave away gift cards and fun prizes. It was a joyful celebration filled with connection, inclusion, and community spirit, and we're grateful to L.A. CADA for inviting us to be part of such a meaningful event.

Success Story

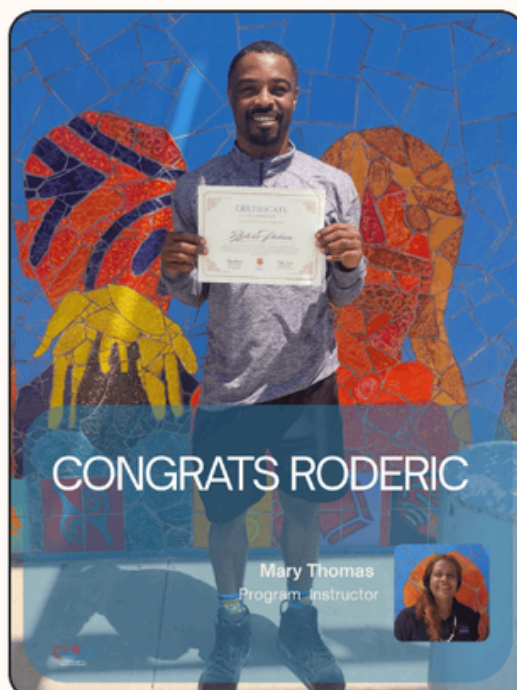

Celebrating Achievements in DV Education

This month, we are thrilled to honor **Lionel** and **Roderic**, who have successfully completed Clark Community Development's 52-Week DV Education Program.

Throughout the year, both Lionel and Roderic showcased their dedication, perseverance, and a sincere commitment to enhancing their DV Education. Their completion of the program not only highlights their hard work but also their eagerness to continue learning and growing at every stage.

We would also like to extend our appreciation to our DV Instructor, **Ms. Mary Thomas**, whose guidance, encouragement, and support have empowered many individuals to reach this significant milestone.
